AI2 Allen Institute for AI

February 4, 2022

The MOSAIC team in Allen Institute for Artificial Intelligence (AI2) is willing to collaborate on research 'AI Technology Development for Commonsense Extraction, Reasoning, and Inference from Heterogeneous Data' project, which may be funded by Institute of Information & Communications Technology Planning & Evaluation (IITP), an organization of Ministry of Science and ICT of South Korean Government. The collaboration may include discussion on the research topics, dataset curation, and methodologies.

Sincerely,

Yejin Choi
Senior Research Manager / Brett Helsel Professor
Allen Institute for AI (AI2) / University of Washington
